

Titan: Cellular Telephone System (CTS)

The Titan Cellular Telephone System (CTS) is a proven winner in the Cellular Industry. CTS enables the Cellular provider to sell, install, activate service and put the new client back on the street within minutes. Operational for several years, companies have seen improvements in inventory, operations, customer service, employee satisfaction and higher profit levels.

CTS supports Bar Coding, EDI, Service & Repair, and critical tracking of Electronic and Mechanical Serial Numbers. Through Titan's "ENTITY" Structure the applications support multiple companies, warehouses, and accounting structures for more complex corporations of today.

Strong data retrieval capabilities and an integrated tool set add to the power of the application. Utilizes the PROGRESS-4GL RDBMS technology. Source code available.
