

## OneStep Pipe and Fittings

OneStep Pipe (and Fittings!) seamlessly integrates with the Titan™ product family (it can also run as a stand alone module!). Are you encumbered with customer certification requirements for your products? Is monitoring your manufacturing processes for ASTM compliance become more than you can manage? Let us introduce you to OneStep Pipe.

OneStep Pipe is the complete solution for recording, monitoring, and reproducing critical manufacturing and product data.

Join the growing list of polyethylene (MDPE/HDPE) facilities running OneStep Pipe and seeing a rapid turnaround on their investment.

Typically, OneStep Pipe is used within industries manufacturing in compliance with these ASTM standards: ASTM D-2513, ASTM D-3261, ASTM D-2683, ASTM F-714, and ASTM D-3035.

### **Key Features:**

- Seamless integration with Titan™, Varnet™, and MXP™ and other Progress™ databases
- Can also be used as a completely standalone product. We'll integrate with your enterprise software.
- Full support is available for bar code integration.
- Many different reports are available for analyzing manufacturing data.
- Proven record of uninterrupted 7/24 availability!
- Built with the Progress 4GL™
- Save time and resources while streamlining your processes
